Testimonials

When we first heard about The Randall Quality Scale for Poetry, our entire staff was skeptical. Three days later, we were overjoyed. Finally, we had an objective, effective tool for doing what we previously believed to be impossible—evaluating poetry.

Principal Malvern Dobster, The Independent School

Our students responded so well to The Randall Quality Scale for Poetry, the ones who should never have attempted to write poetry in the first place simply quit writing poetry. It would be difficult to explain what a tremendous relief that's been.

Dr. L. T. Boyson, Fiasco Unified School District

The Randall Quality Scale for Poetry-Score=190!!! Thank you! Thank you! Thank you!

Mel Boozer, Poet

Puzzle Solved!

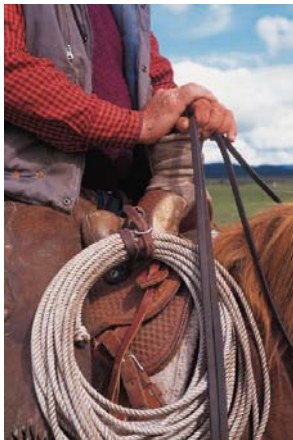

Hope is the thing with feathers, but work is the thing with thorns.

As everyone knows, poetry is a boundless jigsaw puzzle, one that stretches far beyond the confines of the box that waits on some shelf in a 24-hour drugstore which may or may not be within walking distance of your home. But even the most boundless puzzles have a finite number of parts, right?

Right! And poetry is no exception.

In the same way that an old cowhand (even the ones who live far from the Rio Grande) would tell you, "Pardner, it's time to rope that calf!" I'll tell you this . . . saddle up, cowpoke! We're going for a little ride!

The Value of the Present

Rather than letting the dead horse beat around its own bush, let's think back to the important words of the famed poet, T. S. Frost. Esteemed scholar, freelance pharmacologist, and trusted friend to readers around the world, Frost told us (in verse) about

**Those who stand along the shore
watching the women and the waves,
waiting for Michelangelo
as they come and go
until the hired man dies on the porch.**

He told us that life is short enough as it is. We shouldn't be sitting around with our thumbs in our ears all day. And that's why I'm here to tell you about an amazingly simple plan that you can use to dramatically change your life in a severely positive way!

Don't be like those who stare past the waves into the vast nothingness where the overwhelming majority of Earth's fish swim silently, sullenly through their salt water lives.

Michelangelo hasn't been seen or heard from for many centuries, and the hired man? He got hauled away by the county coroner, who made another entry on his list and headed for the next porch.

Instead of slaving away for however many hours a day you slave away, you should be enjoying yourself. Don't worry. I'll help you.

Quit your job. Pick up the phone. Make the call. Quit. Right now. Trust me. I know exactly what I'm doing.

97 percent of the American workforce cannot afford to take a one year vacation. Of the remaining 3 percent, 97 percent of cannot afford to take a two year vacation. Why?

The Plan

Well, the time for wondering is over. The time for action is here. And the time for action is now.

You see, I've been the top and the bottom of the hill in the distance. And that's why I invented what could be the most exciting tool since the wheel.

It's called The Randall Quality Scale for Poetry, and it spells money in the bank. In fact, it spells other things, too. Here are a few of the other things it spells: independence, satisfaction, and a new car.

You are cordially invited to grab this opportunity and hang on. You're going to enjoy the ride!
